

Disclosure Statement Regarding API Access

Please note that this statement is applicable to digiChart Versions 9.6 and higher.

Application Access

Access to the EMR Direct API to retrieve clinical data from digiChart is included in the cost of digiChart CEHRT Edition. Additional fees may apply if the 3rd party developer requires assistance and will be provided on a T&M basis.

All patient data is provisioned through a secure connection to our customers via an internet connection. This data is also securely transferred to EMR Direct via their certified API.

For more information regarding the EMR Direct API connection, please visit the following link: [Document TOS](#)
